

## Environmental Policy

Priority Construction Limited are committed to complying with or exceeding applicable legal and other requirements to which the organisation subscribes which relate to its environmental aspects, across all processes of the company. PCL is also committed to the prevention of pollution. Prevention of pollution is incorporated into the designs of projects which PCL is involved in, and these designs take into account environmental aspects.

The organisation strives for continual improvement across all aspects of their business, which impact on the environment, through performance evaluation and the use of performance indicators.

PCL conduct environmental audits of our operations to ensure that waste and pollution is minimised.

We strive to use the most innovative solutions to reduce adverse environmental impacts for stakeholders, and set an example of leadership in the field of environmental management.

PCL in a bid to continuously improve our processes and lessen the environmental impact of our operations identifies appropriate environmental objectives and targets. These environmental programmes are discussed as part of the management review process to ensure resources are made available to enable the targets to be reached.

Priority Construction will:

- Communicate this policy to all employees and sub-contractors who work on behalf of the company.
- Make the environmental policy available to interested parties.

Signed:   
John McCarthy  
Managing Director
